Poms & Associates Senior Vice President Seth Gilman Discusses How to Protect A Homeowner from Backyard Pool Accidents

Seth Gilman, Poms & Associates' Senior Vice President of Property & Casualty, was featured in the InsuranceQuotes.com article "How to Avoid Diving into Home Insurance Troubles with Your Backyard Pool," on July 19, 2011.

With summer in full swing, the article discusses how homeowners should be aware of their home insurance policy before inviting guests over to swim in their pool. Since homeowners are liable for any accidents that could potentially happen on their property, the article stresses the importance of personal liability insurance to protect them.

InsuranceQuotes.com refers to statistics provided by Centers for Disease Control and Prevention (CDC) which states that drowning is the number two cause of death for children 1 to 14 and the sixth leading cause of unintentional death for people of all ages.

To properly protect your guests from any accidents, Mr. Gilman commented, "Safeguarding a pool with a perimeter fence or mechanical cover is something that every owner should do."

Building a four-sided fence around the perimeter of your pool could reduce the risk of a child drowning by 83 percent according to the CDC.
